This leaflet tells you important information about Tamiflu capsules and is easy to read

What is good about Tamiflu®?

Tamiflu® helps you to get better sooner if you have swine flu. Tamiflu® comes in capsules like tablets.

What is not good about Tamiflu®?

There are some problems that you can get when you take Tamiflu®.

These are called **side effects** but not everyone gets them. Most people get better quickly.

You can feel sick

You can have a headache

You can have diarrhoea

You can contact your local pharmacist or one of the numbers at the end of this leaflet for more information.

How to take Tamiflu®?

You must start to take your Tamiflu® capsules as soon as you get them.

Take the capsules with food so you that you do not feel sick.

Take 1 capsule with your breakfast

Take 1 capsule with a snack at bed time

You must take Tamiflu® at the same time in the morning and evening every day **for 5 days.**

Tamiflu® should make you feel better.

If you feel worse **you must tell your doctor.**
